Molina Chai contains organic coconut blossom sugar as a natural sweetener, and contains no refined sugars. This gives a completely different type of sweetness, and one that does not dominate the undertone of spice.

The spice blend that we use is very close to the original Chai recipe from India, and includes ginger, cardamom, cinnamon, nutmeg, cloves, and more, all expertly fine tuned to compliment each other, both in taste, and in health benefits.

The result of combining the finest organic spices, with the highest quality Darjeeling black tea, is a chai that is infused with love, and flavors that will tantalize your body and mind.

Molina Chai is the closest that you will find to experiencing the authentic Chai of a timeless culture; delivered straight to the door for your enjoyment. You can choose between a variety of flavors, which each contain their own unique cultural twist.
